

# Problem Child

## Doyle Bramhall II & Smokestack

Let me, let me love you  
Help me, to help myself I really want you  
I don't need prove  
'Cause everything inside  
Of me is you I'm a problem child Flash light, so far away  
Slow night climbin' the wall I never thought I would  
Drag so much alone  
I've got everything inside  
Of me to you I'm a problem child  
I'm a problem child I never thought I would  
Drag so much alone  
'Cause I've heard everything inside  
From me to you I'm a problem child  
I'm a problem child  
I'm a problem child  
I'm a problem child
