

Caravan

Inspiral Carpets

Sun, here's the sun
Let's go to the lake
We'll take you down
Just say the word Rain, here's the rain
Slip and slide in vain
Mud between our toes
Saturation take you home They came through the sun
They came through the rain
Through this rocky terrain
A caravan Everyone take note
We've dug here before
Here is where I'll lie
When this night is done It's time I guess
As we go marchin' on
Live for every day
As if it were the last They came through the sun
They came through the rain
Through this rocky terrain
A caravan Sun, here's the sun
Let's go to the lake
We'll take you down
Just say the word Rain, here's the rain
Slip and slide in vain
Mud between our toes
Saturation take you home They came through the sun
They came through the rain
Through this rocky terrain
A caravan
