

Nudged

Gwar

Did you ever stay up late night
Wondering if you'd been screwed?
Ever, ever, really, really know
How much money they're making of you?
Welcome to the club, aye, that's the rub
You're nudged, fudged, nudged, screwed
Did you ever feel confused?
Fall victim to their ruse
You know Hitler gassed the Jews
Maybe you should watch the news
Formula, we deplore you
Formula, we abhor you
Formula, we ignore you
We were sent here to destroy you
Formula, we abhor you
Formula, we ignore you
Formula, we deplore you
We were sent here to destroy you
We won't have to wait too long
Lots of people making bombs
CD-ROMS, fertilizer bombs, yeah
Totally abused you
You wonder why our lives are crummy?
You won't give us any money
Without us who would you jack
To fill up your bulging sack?
But your actions, they shall foment
Vengeance waiting for the moment
Though I spent years as your slave
One day I'll piss on your grave
Formula, set our own pace
Formula, we are a race
Formula, we'll smash your face
Formula, your machine
Formula, I find obscene
Formula, know what I mean
You've reduced something to nothing
You really fucking think, you're something
Hold on baby, time is coming
Nudged
