Nudged

Gwar

Did you ever stay up late night Wondering if you'd been screwed? Ever, ever, really, really know How much money they're making of you? Welcome to the club, aye, that's the rub You're nudged, fudged, nudged, screwedDid you ever feel confused? Fall victim to their ruse You know Hitler gassed the Jews Maybe you should watch the newsFormula, we deplore you Formula, we abhor you Formula, we ignore you We were sent here to destroy youFormula, we abhor you Formula, we ignore you Formula, we deplore you We were sent here to destroy youWe won't have to wait too long Lots of people making bombs CD-ROMS, fertilizer bombs, yeah Totally abused youYou wonder why our lives are crummy? You won't give us any money Without us who would you jack To fill up your bulging sack? But your actions, they shall foment Vengeance waiting for the moment Though I spent years as your slave One day I'll piss on your graveFormula, set our own pace Formula, we are a race Formula, we'll smash your faceFormula, your machine Formula, I find obscene Formula, know what I meanYou've reduced something to nothing You really fucking think, you're something Hold on baby, time is coming
