Friend Like Me

Aladdin Original Soundtrack

Pinky promise
Its gonna be alright
Its gonna be alright
Its gonna be alright
Its gonna be alrightMany late nights when shes all alone
She always call me up on the phone
Begging me to come and spend the night
Because she wants to rub me in her honeycombWhat she need is just a friend like me
What she need is just a good friend like me
What she need is just a friend like me
What she need is just a good friend like meTold her friends that I treat her right
And I love to vibe all day
Feels so good just to be around
A lotta times she dont want me to go awayWhat she need is just a friend like me
What she need is just a good friend like me
What she need is just a friend like me
What she need is just a good friend like meAfter all you cant deny
I took her where her feels
Cant go on, you cant pretend
Thats why shes asking me againWhat she need is just a friend like me
What she need is just a good friend like me
What she need is just a friend like me
What she need is just a good friend like meIts gonna be alright
Its gonna be alright
Its gonna be alright
Its gonna be alright
Its gonna be alright
Its gonna be alrightWhat she need is just a friend like me
What she need is just a good friend like me
What she need is just a friend like me
What she need is just a good friend like meWhat she need is just a friend like me
What she need is just a good friend like me
What she need is just a friend like me
What she need is just a good friend like meWhat she need is just a friend like me
What she need is just a good friend like me
What she need is just a friend like me
What she need is just a good friend like meWhat she need is just a friend like me
What she need is just a good friend like me
What she need is just a friend like me

What she need is just a good friend like me
True
