Everyone Is Crazy

Reggie and the Full Effect

Looks like we're 'bout to make it
I don't think you understand
I know what I do reflects on you
I didn't want it to happen
I don't think you understandThat this is not me or what I will be
I never thought you'd support me
I want you to understand
That I still love you a way, I dream of youI'm givin' it all, I can now
This is my first demand how
Everything is crazy
Everyone is crazyI can't ask you to deal with
All of the stuff that comes with
Why I'm losing all
I'm choosingI'm givin' it all, I can now
This is my first demand how
Everything is crazy
Everyone is crazyI'm givin' it all, I can now
You are my first demand how
Everything is crazy
Everyone is not the way I thought they would beNot the way I thought we would be
Not the way I thought they should be
Not the way I thought we could be
Not the way I thought we would be
Not the way I thought we should be
Not the way I thought we could be babyI know that we can make it
I want you to understand that
My thoughts are clear
I want you nearI'm givin' it all I can now
You are my first demand now
Everything is crazy
Everyone is crazyI'm givin' it all, I can now
You are my first demand how
Everything is crazy
Everyone is not the way I thought they would beNot the way I thought we would be
Not the way I thought they should be
Not the way I thought we could be
Not the way I thought we would be
Not the way I thought we should be
Not the way I thought we could be baby
