

Step Up to the Microphone

Newsboys

I say, "Hello" to anyone who's listening
Put on a show, if that's what make your ears prick
This microphone will take a word and make it bigger
Oh hello, so here goes Steppin' right up to the microphone
I say, "Hey man, there's only one way
One God, one body, one faith alone
If you don't know then ya need to be told" Steppin' right up to the microphone
I say, "Hey man! There's only one way
One God, one body, one faith alone"
I say, "Hey boy, it's a narrow road" I say, "Hello" to anyone who's listening
The message ain't nothing new
I don't decide what's true
So when the stones gets thrown
They either miss or they turn to glory
Here's the story as far as I know Steppin' right up to the microphone
I say, "Hey man, there's only one way
One God, one body, one faith alone
If you don't know then ya need to be told" Steppin' right up to the microphone
I say, "Hey man, there's only one way
One God, one body, one faith alone"
I say, "Hey boy, it's a narrow road" Steppin' up, I'm steppin' up
The question is, "How do I know what we know?"
The answer here is so plain for me so here I go
Tap the mic, "Test 1, 2, 3" Steppin' right up to the microphone
I say, "Hey man, there's only one way
One God, one body, one faith alone
If you don't know then ya need to be told" Steppin' right up to the microphone
I say, "Hey man, there's only one way
One God, one body, one faith alone"
I say, "Hey boy, it's a narrow road" Steppin' right up to the microphone
I say, "Hey man, there's only one way
One God, one body, one faith alone
If you don't know then ya need to be told" Steppin' right up to the microphone
I say, "Hey man, there's only one way
One God, one body, one faith alone"
I say, "Hey boy, it's a narrow road"
