Sure Thing Falling

Yellowcard

He likes vampires and hit list radio
But turns it off when he hears this one song he knows
And you breathe the windows downYou're driving I-4 as you make your way back home
You ride in silence because he will not let go
And you breathe the windows down
It's a new place that you have foundI've been up late writing books
All about heroes and crooks
One of them saves you from thisThe other one steals you
And then, sure things fall
And all sure things fallDo you remember how we used to get so high?
It didn't work at first, we tried it two more times
And we could breathe the windows downI was thinking bout the temperature out side
Cool like the water that was running from our eyes
And we could breathe the windows down
It's a new place that we had foundI've been up late writing books
All about heroes and crooks
One of them saves you from thisThe other one steals you
And then, sure things fall
And all sure things fallHe can take you all
The way to church this time
But don't forget you
Summed it up in fifteen linesI've been up late writing books
All about heroes and crooks
One of them saves you from this
The other one steals youOf all of the places I've looked
And all of the pictures I took
One of them's here with me, now
I'm finally finding out how
Sure things fall, all sure things fall
