Sure Thing Falling

Yellowcard

He likes vampires and hit list radio But turns it off when he hears this one song he knows And you breathe the windows downYou're driving I-4 as you make your way back home You ride in silence because he will not let go And you breathe the windows down It's a new place that you have foundI've been up late writing books All about heroes and crooks One of them saves you from this The other one steals you And then, sure things fall And all sure things fallDo you remember how we used to get so high? It didn't work at first, we tried it two more times And we could breathe the windows downI was thinking bout the temperature out side Cool like the water that was running from our eyes And we could breathe the windows down It's a new place that we had foundI've been up late writing books All about heroes and crooks One of them saves you from this The other one steals you And then, sure things fall And all sure things fallHe can take you all The way to church this time But don't forget you Summed it up in fifteen linesI've been up late writing books All about heroes and crooks One of them saves you from this The other one steals youOf all of the places I've looked And all of the pictures I took One of them's here with me, now I'm finally finding out how
