

# Put the Weight On My Shoulders

[Gino Vannelli](#)

Put the weight on my shoulders  
Take the load off of your mind  
Cause the headwinds that blow  
Will fade away in time Rest yourself on my waters  
Take the lifeline from me  
Rise above what has passed  
And let yourself be free  
I only know what love must bear  
Through laden times I will be there  
And when your down I'll break the fall  
Loose the weight on my shoulders  
It ain't no weight at all I only know what love must do  
When fortune cries I'll follow you  
And when your down I'll break your fall  
Put the weight on my shoulders  
It ain't no weight at all Put the weight on my shoulders  
See you star how it shines  
Cause they're so many dreams  
Left to find
