

Walls (feat. MIKExANGEL & Chisanity)

Trey Songz

Yeah

She a freakShe said she like it when I'm nasty

So I'mma give her what she ask for

Beat the pussy in the backseat

And she gon' suck it 'til her jaw sore

Yeah, yeah, yeah, yeahDrinking your juice like the liquor

I eat that pussy for breakfast

Chop that peach up like a blender

She feel me deep in her chest

Top of the morn, she give me top

I be so deep in her neck

I be so deep, she be wet

We take the sheets out the bed

We take the sheets out the bed

I took you home from the party

I took the clothes off your body

I made you cum and you cumming, you cumming

Dug in that pussy, you running, you running

When I'm nasty, I don't even care

Pull it if it's fake or your real hair

I don't know if it's fake or real back there

But it's like I'm on a pill, I trigg-trigg-triggYou know your walls will remember me

You know your walls won't forget me

You know your walls will remember me

You know your walls won't forget me

She said she like it when I'm nasty

Got my hands 'round her neck

So I'ma give her what she ask for

Ain't no telling what's next

Beat the pussy in the backseat

Whole lot of rough sex

She gon' suck it 'til her jaw sore

Incredible neckDrinking your juice like the liquor

I eat that pussy for breakfast

Chop that peach up like a blender

She feel me deep in her chest

Top of the morn, she give me top

I be so deep in her neck

I be so deep, she be wet

We take the sheets out the bedUp in that pussy like I thought it was a trap
She let me do whatever when I'm di-digging her out
Hang her head off the bed, told her keep it right there
I fuck her face, she let me spit all in her mouth
Then I put my fingers in her holes and I know
Pretty motherfucker sucker so ride it
I got that pussy on my lips like Chapstick
I beat that pussy like my grandma did bad kidsYou know your walls will remember me
You know your walls won't forget me
You know your walls will remember me
You know your walls won't forget meShe said she like it when I'm nasty
I told her sit on my face
So I'ma give her what she ask for
Let a nigga get a taste
Beat the pussy in the backseat
Backseat, backseat
And she gon' suck it 'til her jaw sore
Do it like a real freakDrinking your juice like the liquor
I eat that pussy for breakfast
Chop that peach up like a blender
She feel me deep in her chest
Top of the morn, she give me top
I be so deep in her neck
I be so deep, she be wet
We take the sheets out the bedUp in that pussy like I thought it was a trap
I be so deep, she be wet
Thought it was a trap
Up in that pussy like I thought it was a trap
I be so deep, she be wet
We take the sheets out the bed
We take the sheets out the bed
Nasty stuffYou know your walls will remember me
You know your walls won't forget me
You know your walls will remember me
You know your walls won't forget me
Your walls will remember me
Your walls won't forget meGot my fingers in that pussy like a gun (rah rah)
You so pretty girl, I love to watch you cum
She go crazy, she go stupid, she go dumb
She bring her friends cause without homies ain't no fun
No partition but she want it in the backseat
Fuck around, fuck around and get her ass eat
Can't be shy girl, that's my name, I like it nasty
She dripping spit all on that dick, I grip her ass cheeks
That's my bitch, I call her that and she don't mind

She back it up, I smack it up and we rewind
(?) I'm a boss, yeah my name cold
Since I came girl, I knock it out the frame walls You know your walls will remember me
You know your walls won't forget me
You know your walls will remember me
You know your walls won't forget me
