Not Guilty

Burning Heads

We've been covering the world with concrete
But it never was our goal
To make this world
UnliveableWe're not guilty
Not you not me
We're not guilty
Not at allSee how bad it's bleeding
I don't know what will happen
Believe they will not use it
See how well the world is wasted
Got rick now everyone has a carWe've been covering the world with concrete
But did you ask yourself
About what we're going to leave behind
And how it's going to be in fifty years or less
I can see a better world
But I don't know what will happen
Believe they will not break it
See how well the world is wasted
Got rich but everything that they got
And die
