

# Full Grown Boy

## Tom Petty & The Heartbreakers

I'd like to move on sure and easy  
Like a cat creeps through the grass  
And the foreman seems to know me  
'Cause I found myself at last  
And I'm a full grown boy  
And there's laughter on the hillside  
From voices far away  
How am I gonna tell her that I love her  
When this night might be the day  
And I'm a full grown boy  
Yeah  
My mind floats away  
Yeah  
And I'm changing every day  
Instrumental interlude  
Can you see her in the fire light  
Hear how soft and low she sings  
How am I gonna tell her that I love her  
When words don't mean a thing  
And I'm a full grown boy
