Heal Your Heart

Steve Miller Band

I know you took too long
Deep inside you baby something wrong
You got to get down, to the truth
I know it may hurt you mama but you got to do itIn the end it will heal your heart
Yes it will
In the end it will heal your heart
Yes it willI gave you my love baby, you just used it
Gave you direction mama but you just lose it
People kept telling me that you were just crazy
I won't buy their talking baby, I know you just lazyIn the end it will waste your heart
Yes it will
In the end it will waste your heartI was worried about your tomorrow
I was worried about all your sorrowI know you took too long
Deep inside you mama there's something wrong
You got to get down to the truth
I know I may hurt you baby but you got to do itIn the end it will heal your heart
Yes it will
In the end it will heal your heart
Yes it will
Yes it will, yes it will, yes it will, yes it will
