

# Life Will Go On

## Whippersnapper

Broken skies, heartaches that flowers won't mend

Say goodbye knowing that this is the end

Tender dreams, shadows fall

Love too sweet, to recall

Dry your eyes, face the dawn

Life will go onAll day long thought that we still had a chance

Letting go, this is the end of romance

Broken hearts find your way

Make it through just this day

Face the world on your own

Life will go on, life will go onThere'll be blue skies, every true love

Someday I'll hold you again

They'll be blue skies in a better world, darlin'Tender dreams, shadows fall

Love too sweet, to recall

Dry your eyes, face the dawn

Life will go on, life will go on

Broken heart find your way

Make it through just this day

Face the world on your own

Life will go on
