

Bridge of Love

B.J. Thomas

There's a gap in the world
Only love can fill
And we can bridge that gap
If we have the will
No it won't be easy
We'll need help from above
But if everybody pitches in
We can build a bridge of loveLet's build a bridge of love
Across the sea of hate
From nation to nation
Standing through each generation
Let's build a bridge of love
Across the sea of hate
Hand in Hand
Side by side
That's what it's gonna takeThen one day we'll cross that
Bridge to a better life
And we'll leave behind us
That old world of strife
When we reach our new world
Hate we'll never fear
And I bet if we could see God's face
He'd be smiling from ear to earLet's build a bridge of love
Across the sea of hate
From nation to nation
Standing through each generation
Let's build a bridge of love
Across the sea of hate
Hand in Hand
Side by side
That's what it's gonna takeLet's build a bridge of love
Across the sea of hate
From nation to nation
Standing through each generation
Let's build a bridge of love
Across the sea of hate
Hand in Hand
Side by side
That's what it's gonna takeLet's build a bridge of love

Across the sea of hate
From nation to nation
Standing through each generation
Let's build a bridge of love
