

Little Secret

Joe Bonamassa, Black Country Communion, Derek Sher

Oh yeah, oh yeah
Down, shivers up and down
Wonderin' what we'll get up to
I'm feeling high, get excited, you know how I like it
I'm dying just to be with you
No need to tell a soul, keep it under control
Just tell me where to go, we'll be in privacy
I'll be your secret, your holy secret
Baby, no one need know what we'll get up to
I'll be your secret, your little secret
Don't you know I can't wait just to be with you, oh
So tell me what's the plan, your wish is my command
I'm longin' just to please you, tease you
Be my mystery man
You make me rude, got me in the mood
It's so exciting, hiding my secret rendezvous
We're on a role, keep it under control
Just tell me where to go, we'll be in privacy
I'll be your secret, your holy secret
Baby, no one need know, what we'll get up to
I'll be your secret, your little secret
Yes, it's you that my heart is addicted to, oh yeah
I said I like it when you do it like that
Slow moves, knockin' boots in the back of your car
I like it when you do it like that
(Like it when you do it like that)
Jumpin' hoops, gettin' cute, in the middle of the dark
(Woh, oh, oh)
I like it when you do it like that
I'll be your secret, your holy secret
Baby, no one need know, what we'll get up to
I'll be your secret, your little secret
Don't you know, I can't wait just to be with you
I'll be your secret, your holy secret
I'll be your secret, baby
I'll be your secret, your little secret
Yes, it's you that my heart is addicted to
(I'll be your secret, holy secret)
I said I like it when you do it like that

(Yeah, yeah)
(I'll be your secret, holy secret)
I said I like it when you do it like that
(Yeah, yeah)
I'll be your secret, holy secret
