I've Got Something To Say

Reef

We have come a long way
After all the things we have been through
I'm glad still to have youI know you're hurting
I know you're hurting
It will get better everydayI love all that you are
You are what I live for
After all the things we have been through
I'm glad still to have youI know you're hurting
I know you're hurting
It will get better everyday
