

# Novacane

## Beck

Keep on talking like a Novocaine hurricane  
Low static on the poor man's short-wave  
Stampede's got to dismantle  
Code-red: what's your handle Mission incredible undercover convoy  
Full-tilt chromosome cowboy  
X-ray search and destroy  
Smoke stack black top Novocaine boy Got so low your mom won't drum  
Getting late with the suicide beat  
Test-tube, still-born and dazed  
Chump scum plays in the razor's haze  
Got the momentum radioactive  
Lowdown! Circumcised for the operation  
Don't expect some generation  
Cyanide ride down the turnpike  
Hundred hours on the miracle mic  
Grinding the gears eighteen wheels  
Rigs and robots riding on their heels
