

# Jane

## Ben Folds

Jane be Jane

Better that way, not when you're trying  
Imitating something you think you saw So Jane be Jane  
And if sometimes that might drive them away  
Let them stay there, you don't need them anyway You're worried there might not be  
Anything at all inside but that you're worried  
I should tell you that's not right Don't try to see yourself  
The way that others do  
It's no use You're worried there might not be  
Anything at all inside but that you're worried  
I should tell you that's not right You've had it harder  
Than anyone could know  
So hard to let it go But it's your life and you can decorate it  
As you like, beneath the paint and armor  
In your eyes the truth still shines Jane be Jane  
Jane be Jane
