

Head up High

Go Back to the Zoo

Ooh hold your head up
hold your head up high
Ooh hold your head up
hold your head up high
I'm on a highway all alone
and I feel good sunny side up
I'm on a space ship far from home
and I feel good sunny side up
I'm a leisure and an educated fool
lost my virginity in a swimming pool
I'm on a telephone talking to god
and I feel good sunny side up
Hold your head up high
you've gotta leave all your troubles behind
Hold your head up high
you've gotta leave all your troubles behind
I lost my keys and I forgot where I left my phone
I'm gonna talk about love and hope
that all this television just makes me feel sad
oh I'm gonna start some kind of revolution
Hold your head up high
you've gotta leave all your troubles behind
Hold your head up high
you've gotta leave all your troubles behind
I feel good (good)
alright (oh yeah)
I feel good (good)
alright (oh yeah)
I feel good (good)
alright (oh yeah)
I feel good, so good, so good
Ooh hold your head up
hold your head up high
Ooh hold your head up
hold your head up high
Ooh hold your head up
(you gotta) hold your head up high
Hold your head up high
you've gotta leave all your troubles behind

Hold your head up high
you've gotta leave all your troubles
leave all your troubles behind
I gotta
yeah
