

Can't Get Tired of Me

Bow Wow & Omarion

I know you tired of these lames running same old game
About what they gon? do for you but girl I ain?t the same
You need a real like Bow Weazey in your life
Type of that?ll splurge and give you anything you like
Get your hair done nails fixed boo you got that
Bills late don?t stress get ?em paid like that
Girlfriends hate ?cause they ain?t got nothing else to do
While we dining at the hottest spots, reservations for two
She enjoy a company she can?t stop loving
Whispering in my ear freaking things she wanna do to me
I keep shorty secure, make sure she riding right
Lil mama got hella swag and her body super tight
She be telling places like where she wanna go in life
Things she wanna pursue
Baby get her mind right and that?s exactly why she rolling with B
And I?ma hold you down, can you do the same for me
But in the meantime
If she want it she got it my keys and my wallet
So she can?t get tired of me
She?s the only one thing, I?ma give everything
Because she can?t get tired of me
Because you can?t get tired of me
No you can?t get tired of me me
She can?t get tired of me
How can you get tired of dude who is so fly?
You made your next move your best move that?s why you choose I
Baby daddy tripping
I come over late in the night tongue kiss you in your mouth
While I?m caressing your thighs
I don?t care she got a kid, that?s life so hey
Plus I like little man, I wanted kids anyway
G5 take off baby let?s get away
Private yacht island hopping baby what do you say?
Paparazzi flashing cameras TMZ action
On every blog site we got all the press asking
I?m the Porsche GT, baby in the Ashton
My down ass chick and I love her with a passion
Misery loves company a wise man told me
Ignoring all them haters can?t nobody do me greater

And that's why you rolling with B
And I'ma hold you down, can you do the same for me
But in the meantime
If she want it she got it, my keys and my wallet
So she can't get tired of me
She's the only one thing, I'ma give everything
Because she can't get tired of me
Because you can't get tired of me
No you can't get tired of me me
She can't get tired of me
Girl who married you and put you in that dress tonight?
Can't get away cause your body smelling right
Hey girl touch it, why don't you girl?
That's what you wanna do
You can't get tired of me 'cause I'm O
Even if you tired to you couldn't let me go
There's no possibility, she ain't got the energy of even
Entertaining the thought of leaving me
If she want it she got it, my keys and my wallet
So she can't get tired of me
She's the only one thing, I'ma give everything
Because she can't get tired of me
Because you can't get tired of me
No you can't get tired of me me
She can't get tired of me
