

Talk In Grey (feat. Ryan Merchant)

[Paul van Dyk](#)

Missing the train, moving the days around
These moments in time
Always the change of hands that takes you out
When everything is sinking to the top
And something's got you looking till you see you're blind
You know that I would try my best to say
If I could talk in grey
I wouldn't see your face at all
If I could talk in grey
If I could talk in grey
I wouldn't see your face at all
If I could talk in grey
Live in the night, mumble the days aloud
A questions of rights
Things that we left around until they crawl inside
And make you wanna fall across the lines
When everything is sounding like a battle cry
No promises are good enough to take
If I could talk in grey
I wouldn't see your face at all
If I could talk in grey
If I could talk in grey
I wouldn't see your face at all
If I could talk in grey
If I could talk in grey
I wouldn't see your face at all
If I could talk in grey
