

# Demon

## Bear in Heaven

Take your hands from me  
Add your sympathy  
Say you're holding in  
What your demon didTake your kiss from me  
Add your sympathy  
Say you're holding in  
What your demon didYou came along  
You hurried up  
You made the call  
You made it allYou dream a lot  
You mean a lot  
You set me up  
You set me off  
It's not a big deal  
Making me feel  
Like a moon man  
On the sunIt's just the  
Holy cluster fuck  
You love a lot  
You love a lotTake your hands from me  
Add your sympathy  
Say you're holding in  
What your demon didTake your kiss from me  
Add your sympathy  
Say your holding in  
What your demon did  
You push around  
You draw it back  
You let it go  
You let me knowYou hide behind  
You ride the high  
You hold me up  
You hold me offIt's not a big deal  
Making me feel  
Like a sunbird  
On the moonIt's just the  
Holy cluster fuck  
You do a lot  
You do a lotTake your hands from me

Add your sympathy  
Say you're holding in  
What your demon did
