Beautiful U R

Javier Colon

It's your life
Things may not always go right for you
In those times just leave it behind
'Cause sometimes you gotta play the game
Just to survive without losing yourself
It's a fight, it's true
It takes time, don't have all the answers
No matter how hard it gets
Hold on to what's inside
Don't never let nobody bring you down, girl
Don't never let nobody tear your world apart
Look in the mirror and see who you are
Beautiful U R
In the dark the paint chips have waited
Your heart so deep
Can't you see? See the light in the distance
Open up your eyes, look, look to the sky
And believe
There's much more to life when you're free
That's the key
And in time you will find all the answers
Don't have to lose your pride
Hold on to what's inside
Don't never let nobody bring you down, girl
Don't never let nobody tear your world apart
Look in the mirror and see who you are
Beautiful U R
Don't never let nobody bring you down, girl
Don't never let nobody tear your world apart
Look in the mirror and see who you are
Beautiful U R
Don't care what they say anymore
There's no time to be insecure
I'm leavin' it all on the door
She's staring at him in the face
She's taking it day by day
I'm finally on my way
Don't never let nobody bring you down, girl
Don't never let nobody tear your world apart

Look in the mirror and see who you are
Beautiful U R
Don't never let nobody bring you down, girl
Don't never let nobody tear your world apart
Look in the mirror and see who you are
Beautiful U R, beautiful U R
Beautiful U R, beautiful U R
