

# Beautiful U R

Javier Colon

It's your life  
Things may not always go right for you  
In those times just leave it behind  
'Cause sometimes you gotta play the game  
Just to survive without losing yourself  
It's a fight, it's true  
It takes time, don't have all the answers  
No matter how hard it gets  
Hold on to what's inside  
Don't never let nobody bring you down, girl  
Don't never let nobody tear your world apart  
Look in the mirror and see who you are  
Beautiful U R  
In the dark the paint chips have waited  
Your heart so deep  
Can't you see? See the light in the distance  
Open up your eyes, look, look to the sky  
And believe  
There's much more to life when you're free  
That's the key  
And in time you will find all the answers  
Don't have to lose your pride  
Hold on to what's inside  
Don't never let nobody bring you down, girl  
Don't never let nobody tear your world apart  
Look in the mirror and see who you are  
Beautiful U R  
Don't never let nobody bring you down, girl  
Don't never let nobody tear your world apart  
Look in the mirror and see who you are  
Beautiful U R  
Don't care what they say anymore  
There's no time to be insecure  
I'm leavin' it all on the door  
She's staring at him in the face  
She's taking it day by day  
I'm finally on my way  
Don't never let nobody bring you down, girl  
Don't never let nobody tear your world apart

Look in the mirror and see who you are  
Beautiful U R  
Don't never let nobody bring you down, girl  
Don't never let nobody tear your world apart  
Look in the mirror and see who you are  
Beautiful U R, beautiful U R  
Beautiful U R, beautiful U R
