

# Changes

## Chris Holloway

Never planned for this, it just happened, me and you  
And I know that you got a man  
I hope he understands that he's about to lose you  
Ain't no use in trying to fool yourself  
He ain't what you want anymore  
Thats what you need me right there for  
To help you realize  
That he's not what you want up in your life  
No I never met another like you  
I want you to myself and I gotta have you  
Your love for him just ain't the same  
Now you wanna rearrange  
Now you're sitting thinking of changes  
In your heart switch your relations  
You can play it off but don't fake this  
If it's to much baby then don't take it  
Just don't keep me waiting girl  
Always on my mind all the time  
Girl you know what you do  
And I could be in the wrong  
But I don't care  
Love happens anywhere  
Now you can try and pretend to me  
That you wouldn't give a damn  
But inside can't help to think  
Could this not be anymore clearer  
No I never met another like you  
I want you to myself and I gotta have you  
Your love for him just ain't the same  
Now you wanna rearrange  
Now you're sitting thinking of changes  
In your heart switch your relations  
You can play it off but don't fake this  
If it's to much baby then don't take it  
Just don't keep me waiting girl  
Girl oh girl you belong with me  
And it's not really hard to see  
It's time to change the title  
It's me and you exclusively so

You should be with you should really be with me  
You should be with you should really be with me  
You should be with you should really be with me  
    No I never met another like you  
    I want you to myself and I gotta have you  
    Your love for him just ain't the same  
        Now you wanna rearrange  
    Now you're sitting thinking of changes  
        In your heart switch your relations  
        You can play it off but don't fake this  
        If it's to much baby then don't take it  
        Just don't keep me waiting girl
