Near My Place

Tamarama

And in my place there's an Island by the water
And in my place there's an island you can't see
And in my place there's a spot where you can find me
And we'll be there till the sun has gone to sleep

Singing woah-oh, woah-oh-woah-oh
There's a place where I go
Woah-oh-woah-oh-oh
A little place that I know
Whoa-oh-whoa-oh-whoa-oh
And in my place you'll find me
Whoa-oh-whoa-oh-oh

And in my place where the sun sets the clouds on fire
And in my place where the sun sets the sky alight
I see them burning red all the way to China
And the moon it comes to put it out

Singing woah-oh, woah-oh-woah-oh
There's a place where I go
Woah-oh-woah-oh-oh
A little place that I know
Whoa-oh-whoa-oh-whoa-oh
And in my place you'll find me
Whoa-oh-whoa-oh-oh

We're watching the colors that keep this whole movement together
We're watching the colors that keep this whole moment alive
Like birds of a feather we always stick together
Like birds of same feather we always stick together

Woah-oh-woah-oh-woah-oh
And in my place there's an island
Woah-oh-whoa-oh-oh
A little spot you can find it
Woah-oh-whoa-oh-whoa-oh
There's a place, there's a place, there's a--
Woah-oh-whoa-oh-oh
And in my place you'll find me
