

# And You Know...

## Gossip

And you know, you know it's gonna feel good  
And you know, you know it's gonna feel good  
And you know, you know it's gonna feel good  
And you know, you know it's gonna feel good Anything, anything  
Yeah, you know you got it  
I would do anything to have it  
Who cares what your friends say  
You gotta try  
I would do anything to have it And you know, you know it's gonna feel good  
And you know, you know it's gonna feel good  
And you know, you know it's gonna feel good  
And you know, you know it's gonna feel good Anything, anything  
Yeah, you know you got it  
I would do anything to have it  
Who cares what your friends say  
You gotta try  
I would do anything to have it
