

All Eyes On You

OBB

Everything else fades away
When you step on the scene
In my heart take center stage
And I'll follow your lead

So let me step aside
And put your name in lights
Headline this life

All eyes on you
In everything I do
Everywhere I move
Let your light shine through
So all the world can see
You've taken over me
Let me be a reflection of your truth
(and turn) All eyes on you

You burn brighter than a million stars
And nothing can compare
So let me shadow who you are
Every second and everywhere

So let me step aside
And put your name in lights
Headline this life

All eyes on you
In everything I do
Everywhere I move
Let your light shine through
So all the world can see
You've taken over me
Let me be a reflection of your truth
(and turn) All eyes on you

Yeah I was blind but now I see
You have it all to set me free
So everyday till my time is gone

I'll live my life turning eyes on

No matter where I am
No matter who I'm with
With everything I do let it point to you

All eyes on you
In everything I do
Everywhere I move
Let your light shine through
So all the world can see
You've taken over me
Let me be a reflection of your truth
(and turn) All eyes on you
