

# Look Around

## Stevie Wonder

We are idle strangers  
Married to our dangers  
Into space we go to change our ways Flying to our heavens  
We are all together  
Into hell we chase the light of day Look around and you'll see  
Ruins of the human history  
Look around and you'll see  
Time is only floating in your mind  
You will find  
Searching for time  
Empty is your mind We are charmed by living  
Dazzled into giving  
All the waste we plan to ignore Coldness is the virtue  
Measured by the untrue  
Love is used for something but what for? Look around and you'll see  
Ruins of the human history  
Look around and you'll see  
Time is only floating in your mind  
You will find  
Searching for time  
Empty is your mind  
Look around
