

Police State

Special Duties

We're all living in a Police State
Forget about justice, we're patrolling the night
Driving in the back, the cops didn't say
The guys in the black, you're back in the final...
Police State (x4) We're living in a Police State
Out with justice, get out of sight
I don't care what you say
The guys in the black, you're back in the final...
Police State (x4) YOU'RE living in a Police State
Out with justice, the men of the night
I don't care what you say
The guys in the black, you're back in the final...
Police State (x4)
