

Gonna Be Ready

Tokyo Police Club

I'm gonna be ready Still number one
Never let anybody touch you Cold, colder than anyone
You feel it all a moment later than I do And every time I drive in the city,
I think I see you turning around Upset,
Incredible headache
Help that,
I'm calling a medic (I'm gonna be ready!) Wait for the heat to break,
You're doing fine on your own Cold, colder than anyone
You feel it all a moment later than I do And every time I drive in the city,
I think I see you turning around Upset,
Incredible headache
Help that,
I'm calling a medic (I'm gonna be ready!) Let down,
I'll keep it together
Upset,
I've never been better (I'm gonna be ready!) Living in the minds of girls
Who would never say shit to me now
As pretty as they were in high school,
I wonder if I'll ever see them around Upset,
Incredible headache
Help that,
I'm calling a medic (I'm gonna be ready!) Let down,
I'll keep it together
Upset,
I've never been better (I'm gonna be ready!)
