

# Man on a Wire

Thomas Dybdahl

Man on a wire, hurry  
Higher and higher  
Sway with the gentle breeze  
The rush that leaves that tale  
Of a certain spell  
Is it for real?  
I keep hearing whispers in the distance  
It's cold up here but it's clearWhisper a lot to set me free  
Mighty river's gonna carry me  
Ow I come and as I roll  
Mighty river's gonna carry me home  
This view from up high is vertical  
Wondering I, oh, I  
Could ever get to stop this bleeding heart  
The spark of all, tell me it's real  
Cause I need a different view  
To something new, the horizon  
And two shades of blueWhisper a lot to set me free  
Mighty river's gonna carry me  
Ow I come and as I roll  
Mighty river's gonna carry me homeHigher and higher  
Keep seeing shadows in the distance  
Stranger town before me  
Whisper a lot to set me free  
Mighty river's gonna carry me  
Ow I come and as I roll  
Mighty river's gonna carry me home  
Whisper a lot to set me free  
Mighty river's gonna carry me  
Ow I come and as I roll  
Mighty river's gonna carry me home
