

# Late Night

## This Mortal Coil

When I woke up today and you weren't there to play  
Then I wanted to be with you  
When you showed me your eyes, whispered love at the skies  
Then I wanted to stay with you Inside me I feel, alone and unreal  
And the way you kiss will always be  
A very special thing to me When I lay still at night seeing stars high and light  
Then I wanted to be with you  
When the rooftops shone dark, all alone saw a spark  
Spark of love just to stay with you Inside me I feel, alone and unreal  
And the way you kiss will always be  
A very special thing to me If I mention your name, turn around on a chain  
Then the sky opens up out you  
When we grew very tall, when I saw you so small  
Then I wanted to stay with you Inside me I feel, alone and unreal  
And the way you kiss will always be  
A very special thing to me Inside me I feel, alone and unreal  
And the way you kiss will always be  
A very special thing to me
