

# Create In Me

## Rend Collective

Create in me a clean, clean heart  
Create in me a work of art  
Create in me a miracle  
Something real, and something beautiful  
Create in me a clean, clean heart  
Create in me a work of art  
Create in me a miracle  
Something real, and something beautiful  
O Lord, come  
Create in me a clean, clean heart  
Create in me a work of art  
Create in me a miracle  
Something real, and something beautiful  
Create a miracle in me  
You're not finished with me yet  
You're not finished with me yet  
By Your power I can change, I can change  
'Cos You're not finished with me yet  
You make all things new, oh  
You're not finished with me yet  
You're not finished with me yet  
By Your power I can change, I can change  
'Cos You're not finished with me yet  
C'mon everybody  
Celebrate your freedom  
Create in me a clean, clean heart  
Create in me a work of art  
Create in me a miracle  
Something real, and something beautiful  
Hey!  
Create a miracle in me  
You're not finished with me yet  
You're not finished with me yet  
By Your power I can change, I can change  
'Cos You're not finished with me yet
