

# My Wings

## Lacuna Coil

Slip out the door and fly  
I'm lost in time I hover  
as an angel, I hover  
Embracing all myself I reel  
through the storm that is shaking me  
I don't know where  
I don't know why  
I know I'm not going to fall  
And butterflies are flying (fly away)  
right beside me  
as I ascend to the clouds

No, I won't delay  
no, I won't delay  
time is like a knife for me now  
I just won't delay  
Time is mine  
I got the blade  
change your mind  
I'll make you stay  
Butterflies are flying  
and I just won't delay
