

Xanadu

Bosson

Xanadu

Xanadu Love isn't easy when it's too far away
You need a lot of faith and dedication
I don't have that problem, I see you everyday
An hour filled with hope and inspiration Xanadu, I've been waiting my whole life
For a chance to meet a girl just like you
And I believe it's gonna be you and me
If you will get to know me too Xanadu, I've been waiting my whole life
For a chance to meet a girl just like you
And I believe it's gonna be you and me
If you will get to know me too I love all about you, but you don't know who I am
Sure is a complicated situation
So what if I'm dreaming, I'm dreaming I am your man
And we wake up in a real life conversation Xanadu, I've been waiting my whole life
For a chance to meet a girl just like you
And I believe it's gonna be you and me
If you will get to know me too Xanadu, I've been waiting my whole life
For a chance to meet a girl just like you
And I believe it's gonna be you and me
If you will get to know me too I fell in love with a girl on TV
She captivates me on reality TV
She's looking at me but she cannot see me
I hope she will be more than a fantasy Xanadu, I've been waiting my whole life
For a chance to meet a girl just like you
And I believe it's gonna be you and me
If you will get to know me too Xanadu, I've been waiting my whole life
For a chance to meet a girl just like you
And I believe it's gonna be you and me
If you will get to know me too I fell in love with a girl on TV
She captivates me on reality TV
