

# Hooked Up

## Jamiroquai

I'm so glad I've got you hooked up on my drug  
Everybody dance to the music  
Are you feeling well? Now you caught this bug  
Everybody dance to the music Think last time I took an overdose  
Come on dance to the music  
Hey, well it made me realize that I came too close  
Now I'm gonna dance to the music, music, music  
Yeah, come on now Dead can seem to bear no relevance  
Bet you wished you danced to the music  
What you want to do is kill yourself  
Still you don't dance to the music I can look at you and hear your scream  
Come on dance to the music  
And you tell me that your needle's clean  
Come on dance, dance Come on now dance to the music  
I need it, need it, need it  
Come on now dance to the music  
I need it, need it, need it, yeah  
Come on now dance to the music
