

Jaded Now (Astronomy Version)

Bleach

Don't get jaded now
'Cause it ain't over
Before you know somehow
We're going to find some closure I've been unwound
But I won't break
And I have found
It's not too late So, don't get jaded now
The sun will rise
Don't get jaded now
We will survive Don't get jaded now
We're still alive
Don't get jaded now
Don't get jaded now And I'm in need
Of resurrection
Won't you please
Bring new direction 'Cause, all my faith
Is nearly gone
And I'm so tired
Of holding on But, don't get jaded now
The sun will rise
Don't get jaded now
We are alive Don't get jaded now
We will survive And oh, it's been great trip
Getting here
We all got lost in music
Then came fear And I'm so scared
But I can't be scared I will make it through
You will make it through
I will make it through
Yeah, we'll make it through Don't get jaded now
And don't get jaded now I'm not scared
I'm not scared
I'm not scared I'm not scared, hold on
Don't get jaded now the sun will rise
