## **Seven Lives**

## **Enigma**

Chill, chill, chill Chill, chill, chill Chill, chill Traces, many faces Lost in the maze of time Blinded by the darkness That's the start of the seven livesChill, chill, chill Chill, chill, chill Chill, chill, chillIt's too close, but still too far Follow your inner guide Show us who you are, are, are In these seven livesChill, chill, chill Chill, chill, chill Chill, chill, chillTake it easy Take it easy, take it easy Follow your inner guide Show me who you are In these seven livesIt's too close, but still too far Show me who you are In these seven lives Close but still too far Show me who you are In these seven lives
