

# Anvil

## ATM Addicted to Machines

When you come and find me I'll be lost in reason  
You'll be like the apple of it  
You'll be like the apple of it  
You'll be like the apple of my eye  
When you come and find me I'll be lost in reason  
You'll be like the apple of it  
You'll be like the apple of it  
You'll be like the apple of my eye  
When you were my angel I was like you're anvil  
When you were my angel I was like you're anvil  
Please let me down now  
Please let me down now  
When you come and find me I'll be lost in reason  
You'll be like the apple of it  
You'll be like the apple of it  
You'll be like the apple of my eye  
When you come and find me I'll be lost in reason  
You'll be like the apple of it  
You'll be like the apple of it  
You'll be like the apple of my eye  
When you were my angel I was like you're anvil  
When you were my angel I was like you're anvil  
Please let me down now  
Please let me down now  
Rain, raining away, it's so hard  
Please let me down now
