

Come A Little Closer

[Don Williams](#)

Now stop that small talk, turn that light off
It ain't my fault you look so fine
My hearts achin' and I ain't fakin'
I don't ask for much of nuthin', I just need a little lovin'
Come on, babe, come a little closer
Honey, move it over, feels so right
Pull that shade just a little lower
Come a little closer, baby, tonight
Now put that phone down, shut that door now
Let's just think about me and you
My hearts racin', time is a wastin'
I don't want much of nothin', a little kiss a little hugin'
Come on, babe, come a little closer
Honey, move it over, feels so right
Pull that shade just a little lower
Come a little closer, baby, tonight
Cut off that late show, turn that lamp low
Honey, you know how I feel
My heart's beatin', the night is pleasin'
I ain't askin' that much of ya, all I want to do is love ya
Come on, babe, come a little closer
Honey, move it over, feels so right
Pull that shade just a little lower
Come a little closer, baby, tonight
Come on, babe, come a little closer
Honey, move it over, feels so right
Pull that shade just a little lower
Come a little closer, baby, tonight
