California

Danny Kirwan

Written by c.g.adams and d. gillespie.Too many times I've dreamt about you
Seen too many days without the sun
'cause I know it shines all the day through
And in too many ways, I miss the sun(background singers:)
So wait for me california
I gotta see my way to you
(danny:)
Too many times I've my heart ache
None of those times have I felt youSo far to go, but how it's worthwhile
Just get me back where I belong
Your local mountains of love of such style
And every day is like a song(background singers:)
So wait for me california
I gotta see my way to you
(danny:)
I need the kind of life you give me
It makes my love for you feel true(background singers:)
So wait for me california
I gotta see my way to you
(danny:)
I need the kind of life you give me
It makes my love for you feel true
