

# Red Cape Diver

## Foxy Shazam

Step up into the ring  
You might have just met your match  
You can't control that thing  
I would not take that chance  
Hey I am the red cape diver  
You can talk that talk, can you walk that walk?  
I am the red cape diver  
Ah it fires torpedoes  
So kiss your lolita  
Make sure they know you might  
Die hug your bambinos  
Have your last meal  
Make sure they know you're scared  
Ah I don't want to die  
Tell my momma that I love her  
Tell my poppa the same thing  
And when I step up into the ring  
Pray for me, I'm gonna need it  
Both of our eyes lock eye to eye  
Battle to the death, which one will die  
I'm so scared, I don't want my mom to die  
Or my dad or my dog or my best friend  
What if my boo boo died, what would I do without them  
What would they do without me, what would I do without...  
It fires torpedoes, I'm hit, I'm down
