

I Needed This

Nevertheless

I am here
But am I still alive
You broke me down
But somehow I survived

I never thought that I could leave it
I can't believe it
It's gone

(Chorus)
You'll never hear me say
I wanted it this way
It hurts me everytime I breath

No matter what I'm told
I'm left out feeling cold
But I know I needed this all along

Safe and well
Do everything advised
Take this heart
It was never even mine

I never thought that I could leave it
I can't believe it
It's gone

(Chorus)
You'll never hear me say
I wanted it this way
It hurts me everytime I breath

No matter what I'm told
I'm left out feeling cold
But I know I needed this all along

Blood stains and scars
Are much worse than ours
But you're breaking healing
It's taken me this far

This far

I never thought that I could leave it
I can't believe it
It's gone

I thought that maybe I'd stop breathing
But instead I'm moving on

(Chorus)

You'll never hear me say
I wanted it this way
It hurts me everytime I breath

No matter what I'm told
I'm left out feeling cold
But I know I needed this all along

I needed this all along
I needed this all along
