One Step Away

John Farnham

Where did you come from
I knew it all along
'Cause I've been waiting for
Someone like youYou took me by surprise
The look was in your eyes
I won't be taking chances any moreBut it seems like a long time ago
I was the only one
But one look I was hooked and I knew
I'm not the lonely one againJust one step, I'm gonna get to you
One more step, a little closer to you
One step away, from your love
Baby, from your loveWhere did we belong
In a would that seems so wrong
We could be lovers, strangers, friends
Who knowsBut it's only a moment away
And then it's you and me
It's the face in the crowd that you know
The opportunity exists like thisJust one step, I'm gonna get to you
One more step, a little closer to you
One step away, from your love
Darling, from your loveBut it seems like a long time ago
I was the only one
But one look I was hooked and I knew
I'm not the lonely one againJust one step, I'm gonna get to you
One more step, a little closer to you
One step away, from your love
Baby, from your loveFrom your love
