Shard

Matmos

call of cthulhu as i'm recording here in this studio this shard will surely reach someone, someone who'll know but all these messages have been in vain from the little glass bottle to the unfilmable such things just should not be writ so please destroy this if you wish to live 'tis better in ignorance to dwell than to go screaming into the abyss worse than hell but all these messages have been in vain from the little glass bottle to the call of cthulhu.
