

If You Think

Patty Loveless

If you think I don't care
Just because I'm not there
Then my love
You had better think again
And if you think
There's someone new
Who can take the place of you
Then my love
You had better think again
You live deep inside of me
As deep as I can see, there's no denying
I guess I'm feeling kind of blue
I'm lonely without you, until we meet again
If you think my love will change
Just because you're away

Then my love
You had better think again
Send me a letter everyday
Send your love my way and keep me smilin'
Tell me all the things you do
And I will do it too, until we meet again
If you think I don't care
Just because I'm not there
Then my love
You had better think again
Then my love
You had better think again
Then my love
You had better think again
