Together (feat. Gwen Stefani)

Calvin Harris

Always running from what feels right
Too fast, and I didn't know
Then a minute toss the daylight
You're here, no way to let goDon't look back, when you're holding me
'Cause I know what this love was meant to be
One day we're gonna wake up together
You won't wanna go home
We'll find love here together
And it feels so good in my armsWe're gonna wake up together
You won't wanna go home
We'll find love here forever
'Cause we'll wake up togetherI got something and it feels right
What I need it to be
You control what you feel for me
I was watching you the whole night
I can never explain how the magic was madeDon't look back, when you're holding me
'Cause I know what this love was meant to be
One day we're gonna wake up together
You won't wanna go home
We'll find love here together
And it feels so good in my armsWe're gonna wake up together
You won't wanna go home
We'll find love here forever
'Cause we'll wake up together(One day)
You won't wanna go home
And it feels so good in my arms
You won't wanna go home
'Cause we'll wake up together
